Synthetic fixture: malformed ToUnicode CMap.
Recoverable body text line 0 for the extraction fallback.
Recoverable body text line 1 for the extraction fallback.
Recoverable body text line 2 for the extraction fallback.
Recoverable body text line 3 for the extraction fallback.
Recoverable body text line 4 for the extraction fallback.
Recoverable body text line 5 for the extraction fallback.
Recoverable body text line 6 for the extraction fallback.
Recoverable body text line 7 for the extraction fallback.
Recoverable body text line 8 for the extraction fallback.
Recoverable body text line 9 for the extraction fallback.
Recoverable body text line 10 for the extraction fallback.
Recoverable body text line 11 for the extraction fallback.
Recoverable body text line 12 for the extraction fallback.
Recoverable body text line 13 for the extraction fallback.
Recoverable body text line 14 for the extraction fallback.
Recoverable body text line 15 for the extraction fallback.
Recoverable body text line 16 for the extraction fallback.
Recoverable body text line 17 for the extraction fallback.
Recoverable body text line 18 for the extraction fallback.
Recoverable body text line 19 for the extraction fallback.
Recoverable body text line 20 for the extraction fallback.
Recoverable body text line 21 for the extraction fallback.
Recoverable body text line 22 for the extraction fallback.
Recoverable body text line 23 for the extraction fallback.
Recoverable body text line 24 for the extraction fallback.
Recoverable body text line 25 for the extraction fallback.
Recoverable body text line 26 for the extraction fallback.
Recoverable body text line 27 for the extraction fallback.
Recoverable body text line 28 for the extraction fallback.
Recoverable body text line 29 for the extraction fallback.
Recoverable body text line 30 for the extraction fallback.
Recoverable body text line 31 for the extraction fallback.
Recoverable body text line 32 for the extraction fallback.
Recoverable body text line 33 for the extraction fallback.
Recoverable body text line 34 for the extraction fallback.
Recoverable body text line 35 for the extraction fallback.
Recoverable body text line 36 for the extraction fallback.
Recoverable body text line 37 for the extraction fallback.
Recoverable body text line 38 for the extraction fallback.
Recoverable body text line 39 for the extraction fallback.
Recoverable body text line 40 for the extraction fallback.
Recoverable body text line 41 for the extraction fallback.
Recoverable body text line 42 for the extraction fallback.
Recoverable body text line 43 for the extraction fallback.
Recoverable body text line 44 for the extraction fallback.
Recoverable body text line 45 for the extraction fallback.
Recoverable body text line 46 for the extraction fallback.
Recoverable body text line 47 for the extraction fallback.
Recoverable body text line 48 for the extraction fallback.
Recoverable body text line 49 for the extraction fallback.
Recoverable body text line 50 for the extraction fallback.
Recoverable body text line 51 for the extraction fallback.
Recoverable body text line 52 for the extraction fallback.
Recoverable body text line 53 for the extraction fallback.
Recoverable body text line 54 for the extraction fallback.
Recoverable body text line 55 for the extraction fallback.
Recoverable body text line 56 for the extraction fallback.
Recoverable body text line 57 for the extraction fallback.
Recoverable body text line 58 for the extraction fallback.
Recoverable body text line 59 for the extraction fallback.
Recoverable body text line 60 for the extraction fallback.
Recoverable body text line 61 for the extraction fallback.
Recoverable body text line 62 for the extraction fallback.
Recoverable body text line 63 for the extraction fallback.
Recoverable body text line 64 for the extraction fallback.
Recoverable body text line 65 for the extraction fallback.
Recoverable body text line 66 for the extraction fallback.
Recoverable body text line 67 for the extraction fallback.
Recoverable body text line 68 for the extraction fallback.
